## **MAML3 Monoclonal Mouse Antibody** (MAML3/1303)

## **Product Description**

MAML3 (mastermind-like protein 3) is a nuclear speckle protein that acts as a transcriptional coactivator for Notch receptors. The Notch signaling pathway influences cell fate by regulating the ability of precursor cells to properly respond to developmental signals. MAML3 is a member of the mastermind-like family of proteins that are human homologs of the Drosophila melanogaster mastermind protein. Through its N-terminal region, MAML3 interacts with the ankyrin repeats of the Notch proteins Notch 1, Notch 2, Notch 3 and Notch 4. This interaction leads to formation of a DNA-binding complex with the Notch proteins and RBP-J, a complex that can then induce HES1 gene expression. While the N-terminal domain of MAML3 is essential for proper Notch binding, the C-terminal domain of MAML3 is essential for proper Notch binding, the C-terminal domain of MAML3 is essential for traper proteins and tensorities and tensorities and tensorities and tensorities and tensorities. MAML3 is essential for transcriptional activation. Due to its involvement in cell signaling and transcriptional activation, upregulation of MAML3 is thought to be involved in oncogenesis. Primary antibodies are available purified, or with a selection of fluorescent ČF® dyes and other labels. CF® dyes offer exceptional brightness and photostability. See the CF® Dye Brochure for more information. Note: Conjugates of blue fluorescent dyes like CF®405S and CF®405M are not recommended for detecting low abundance targets, because blue dyes have lower fluorescence and can give higher non-specific background than other dye colors. Stock status: Because Biotium offers a large number of antibody and conjugation options, primary antibody conjugates may be made to order. Typical lead times are up to one week for CF® dye and biotin conjugates, and up to 2-3 weeks for fluorescent protein and enzyme conjugates. Please email order@biotium.com to inquire about stock status and lead times before placing your order. Catalog number key for antibody number 1303, Anti-MAML3 (MAML3/1303)

Product attributes				
Antibody number	#1303			
Antibody reactivity	MAML3			
(target) Antibody type	Primary			
Host species	Mouse			
Clonality	Monoclonal			
Clone	MAML3/1303			
Isotype	lgG1			
Molecular weight	150-170 kDa			
Synonyms	CAGH3; ERDA3; GDN; MAML3; Mastermind-like protein 3; TNRC3			
Human gene symbol	MAML3			
Entrez gene ID	55534 (Human)			
SwissProt	Q96JK9 (Human)			
Unigene	586165 (Human)			
Immunogen	Recombinant human full-length MAML3 protein			
Antibody target cellular	Nucleus			
Verified antibody	IHC (FFPE) (verified)			
applications Species reactivity	Human
