

# **Villin Monoclonal Mouse Antibody** (VIL1/1325)

## **Product Description**

This antibody recognizes a protein of 95 kDa, which is identified as villin. It is a major constituent in the microvilli, which compose the brush border of epithelial cells forming absorptive surfaces of the intestinal and renal proximal tubular epithelia. Anti-Villin labels the brush border area in the gastrointestinal mucosal epithelium and urogenital tract. Among neoplasms, villin is predominantly expressed in tumors of colorectal origin. Antibody to villin is useful in identifying malignant cells from primary and metastatic colorectal carcinomas. This antibody also labels Merkel cells of the skin.

Primary antibodies are available purified, or with a selection of fluorescent CF® dyes and other labels. CF® dyes offer exceptional brightness and photostability. See the CF® Dye Brochure for more information. Note: Conjugates of blue fluorescent dyes like CF®405S and CF®405M are not recommended for detecting low abundance targets, because blue dyes have lower fluorescence and can give higher non-specific background than other dye colors.

Stock status: Because Biotium offers a large number of antibody and conjugation options, primary antibody conjugates may be made to order. Typical lead times are up to one week for CF® dye and biotin conjugates, and up to 2-3 weeks for fluorescent protein and enzyme conjugates. Please email order@biotium.com to inquire about stock status and lead times before placing your order.

Catalog number key for antibody number 1325, Anti-Villin (VIL1/1325)

### Product attributes

| Antibody number   | #1325  |  |  |
|---|--|--|--|
| Antibody reactivity (target)  | Villin   |  |  |
| Antibody type   | Primary  |  |  |
| Host species  | Mouse  |  |  |
| Clonality   | Monoclonal   |  |  |
| Clone   | VIL1/1325  |  |  |
| Isotype   | IgG1, kappa  |  |  |
| Molecular weight  | 93 kDa   |  |  |
| Synonyms  | VIL1; Villin-1; Villin1  |  |  |
| Human gene symbol   | VIL1   |  |  |
| Entrez gene ID  | 7429   |  |  |
| SwissProt   | P09327   |  |  |
| Unigene   | 654595   |  |  |
| Immunogen   | Recombinant human Villin fragment of 133 amino acid residues (aa179-311) (exact sequence is proprietary)   |  |  |
| Antibody target cellular<br>localization  | Cytoskeleton   |  |  |
| Verified antibody<br>applications   | Flow (intracellular) (verified), IF (verified), IHC (FFPE) (verified), WB (verified)   |  |  |
| Species reactivity  | Human  |  |  |
| Antibody application notes  | Higher concentration may be required for direct detection using<br>primary antibody conjugates than for indirect detection with<br>secondary antibody, Immunofluorescence: 1-2 ug/mL, Flow<br>cytometry: 0.5-1 ug/million cells in 0.1mL, Immunohistology<br>(formalin): 0.25-0.5 ug/mL, Staining of formalin-fixed tissues<br>requires boiling tissue sections in 10 mM citrate buffer, pH 6.0,<br>for 10-20 min followed by cooling at RT for 20 min, Western<br>blotting 1-2 ug/mL, Optimal dilution for a specific application<br>should be determined by user |  |  |
| Positive control  |  |  |  |
| FUSITIVE CONTON   | A549, HepG2 and HCT116 cells. Colon or Rectum.   |  |  |
| Shipping condition  | A549, HepG2 and HCT116 cells. Colon or Rectum.<br>Room temperature   |  |  |
