CD7 Monoclonal Mouse Antibody (HuLy-m2)

Product Description

Recognizes a protein of 40 kDa, identified as CD7 (Workshop IV; Code T165). CD7 is a member of the immunoglobulin gene superfamily. Its N-terminal amino acids 1-107 are highly homologous to Ig kappa-L chains whereas the carboxyl-terminal region of the extracellular domain is proline-rich and has been postulated to form a stalk from which the Ig domain projects. CD7 is expressed on the majority of immature and mature T-lymphocytes, and T cell leukemia. It is also found on natural killer cells, a small subpopulation of normal B cells and on malignant B cells. Cross-linking surface CD7 positively modulates T cell and NK cell activity as measured by calcium fluxes, expression of adhesion molecules, cytokine secretion and proliferation. CD7 associates directly with phosphoinositol 3'-kinase. CD7 ligation induces production of D-3 phosphoinositides and tyrosine phosphorylation. Catalog number key for antibody number 1252, Anti-CD7 (HuLy-m2)

Product attributes

| Product attributes | | | |
|---|--|--|--|
| Antibody number | 1252 | | |
| Antibody reactivity (target) | CD7 | | |
| Antibody type | Primary | | |
| Host species | Mouse | | |
| Clonality | Monoclonal | | |
| Clone | HuLy-m2 | | |
| Isotype | lgG2a, kappa | | |
| Molecular weight | ar weight 40 kDa | | |
| Synonyms | GP40; Leu9; p41; T-cell leukemia antigen; T-cell surface antigen Leu-9; Tp40; TP41 | | |
| Human gene symbol | CD7 | | |
| Entrez gene ID | D 924 | | |
| SwissProt | pt P09564 | | |
| Unigene | 186820 | | |
| Immunogen | Human thymocytes | | |
| Antibody target cellular localization | Plasma membrane | | |
| Expected antibody applications | IF (published for clone) | | |
| | | | |
| Species reactivity | Human | | |
| Species reactivity Antibody application notes | Human Higher concentration may be required for direct detection using primary antibody conjugates than for indirect detection with secondary antibody, Flow cytometry: 0.5-1 ug/million cells, Immunofluorescence: 0.5-1 ug/mil. Optimal dilution for a specific application should be determined by user | | |
