## Tyrosinase Monoclonal Mouse Antibody (T311 + OCA1/812)

## **Product Description**

Recognizes a cluster of proteins between 70-80 kDa, identified as tyrosinase. Occasionally a minor band at 55 kDa is also detected. This MAb shows no cross-reaction with MAGE-1 and tyrosinase-related protein 1, TRP-1/gp75. Tyrosinase is a copper-containing metalloglycoprotein that catalyzes several steps in the melanin pigment biosynthetic pathway; the hydroxylation of tyrosine to L-3,4-dihydroxy-phenylalanine (dopa), and the subsequent oxidation of dopa to dopaquinone. Mutations of the tyrosinase gene occur in various forms of albinism. Tyrosinase is one of the targets for cytotoxic T-cell recognition in melanoma patients. Staining of melanomas with this MAb shows tyrosinase in melanotic as well as amelanotic variants. This MAb is a useful marker for melanocytes and melanomas.

Primary antibodies are available purified, or with a selection of fluorescent CF® dyes and other labels. CF® dyes offer exceptional brightness and photostability. See the CF® Dye Brochure for more information. Note: Conjugates of blue fluorescent dyes like CF®405S and CF®405M are not recommended for detecting low abundance targets, because blue dyes have lower fluorescence and can give higher non-specific background than other dye colors.

Stock status: Because Biotium offers a large number of antibody and conjugation options, primary antibody conjugates may be made to order. Typical lead times are up to one week for CF® dye and biotin conjugates, and up to 2-3 weeks for fluorescent protein and enzyme conjugates. Please email <a href="mailto:order@biotium.com">order@biotium.com</a> to inquire about stock status and lead times before placing your order.

Catalog number key for antibody number 0908, Anti-Tyrosinase (T311 OCA1/812)

## Product attributes

Product attributes			
Antibody number	#0908		
Antibody reactivity (target)	Tyrosinase		
Antibody type	Primary		
Host species	Mouse		
Clonality	Monoclonal		
Clone	T311 + OCA1/812		
Isotype	IgG's		
Molecular weight	70-80 kDa		
Synonyms	ATN, CMM8, LB24-AB, Monophenol monooxygenase, OCA1, OCA1A, Oculocutaneous albinism IA, SHEP3, SK29-AB, Turrejection antigen AB, TYR		
Human gene symbol	TYR		
Entrez gene ID	7299		
SwissProt	P14679		
Unigene	503555		
Immunogen	Recombinant tyrosinase protein (T311); Recombinant human TYR protein (OCA1/812)		
Antibody target cellular localization	Vesicular		
Verified antibody applications	IHC (FFPE) (verified)		
Species reactivity	Human		
Antibody application notes	ris with 1 mM EDTA, pH 9.0, or 10 mM citrate buffer, pH6.0, for 0-20 min followed by cooling at RT for 20 minutes, Flow cytometry 0.5-1 ug/million cells/0.1 mL, Optimal dilution for a
