## CELA3B / ELA3B Monoclonal Mouse Antibody (CELA3B/1218)

## **Product Description**

This MAb recognizes a protein of ~17 kDa, identified as CELA3B (Chymotrypsin like elastase family member 3B). Elastases form a subfamily of serine proteases that hydrolyze many proteins in addition to elastin. Humans have six elastase genes which encode the structurally similar proteins elastase 1, 2, 2A, 2B, 3A, and 3B. Unlike other elastases, elastase 3B has little elastolytic activity. Like most of the human elastases, elastase 3B is secreted from the pancreas as a zymogen and, like other serine proteases such as trypsin, chymotrypsin and kallikrein; it has a digestive function in the intestine. Elastase 3B preferentially cleaves proteins after alanine residues. Elastase 3B may also function in the intestinal transport and metabolism of cholesterol. Both elastase 3A and elastase 3B have been referred to as protease E and as elastase 1, and excretion of this protein in fecal material is frequently used as a measure of pancreatic function in clinical assays.

Primary antibodies are available purified, or with a selection of fluorescent CF® dyes and other labels. CF® dyes offer exceptional brightness and photostability. See the CF® Dye Brochure for more information. Note: Conjugates of blue fluorescent dyes like CF®405S and CF®405M are not recommended for detecting low abundance targets, because blue dyes have lower fluorescence and can give higher non-specific background than other dye colors.

Stock status: Because Biotium offers a large number of antibody and conjugation options, primary antibody conjugates may be made to order. Typical lead times are up to one week for CF® dye and biotin conjugates, and up to 2-3 weeks for fluorescent protein and enzyme conjugates. Please email <a href="mailto:order@biotium.com">order@biotium.com</a> to inquire about stock status and lead times before placing your order.

Catalog number key for antibody number 1218, Anti-CELA3B (CELA3B/1218)

## Product attributes

Call us: 800-304-5357

Product attributes			
Antibody number	#1218		
Antibody reactivity (target)	CELA3B, ELA3B		
Antibody type	Primary		
Host species	Mouse		
Clonality	Monoclonal		
Clone	CELA3B/1218		
Isotype	IgG1, kappa		
Molecular weight	17 kDa		
Synonyms	Chymotrypsin like elastase family member 3B (CELA3B); ELA3B; Elastase IIIB; Protease E		
Human gene symbol	CELA3B		
Entrez gene ID	23436		
SwissProt	P08861		
Unigene	728752		
Immunogen	Recombinant human CELA3B protein		
Verified antibody applications	WB (verified)		
Antibody target cellular localization	Cytoplasmic		
Species reactivity	Human		
Antibody application notes	Higher concentration may be required for direct detection using primary antibody conjugates than for indirect detection with secondary antibody, Immunofluorescence: 0.5-1 ug/mL, Does not react with rat; others not known, Flow Cytometry 0.5-1 ug/million cells/0.1 mL, ELISA Use Ab at 2-4 ug/mL, for coating order Ab without BSA, Optimal dilution for a specific application should be determined by user		
Antibody application notes  Positive control	primary antibody conjugates than for indirect detection with secondary antibody, Immunofluorescence: 0.5-1 ug/mL, Does not react with rat; others not known, Flow Cytometry 0.5-1 ug/million cells/0.1 mL, ELISA Use Ab at 2-4 ug/mL, for coating order Ab without BSA, Optimal dilution for a specific application		
	primary antibody conjugates than for indirect detection with secondary antibody, Immunofluorescence: 0.5-1 ug/mL, Does not react with rat; others not known, Flow Cytometry 0.5-1 ug/million cells/0.1 mL, ELISA Use Ab at 2-4 ug/mL, for coating order Ab without BSA, Optimal dilution for a specific application should be determined by user
