## TOX3 Monoclonal Mouse Antibody (TOX3/1124)

## **Product Description**

This antibody recognizes a 63 kDa protein, which is identified as TOX3. It contains a high mobility group (HMG)-box, which regulates Ca2 -dependent transcription in neurons through interaction with the cAMP-response-element-binding protein (CREB). TOX3 appears to be associated with breast cancer susceptibility and is expressed downstream of a cytoprotective cascade together with CITED1, a transcriptional regulator that does not bind directly to DNA. TOX3 is predominantly expressed in the brain and forms homodimers. TOX3 overexpression protects neuronal cells from cell death caused by endoplasmic reticulum stress or BAX overexpression through the induction of anti-apoptotic transcripts and repression of pro-apoptotic transcripts.

Primary antibodies are available purified, or with a selection of fluorescent CF® dyes and other labels. CF® dyes offer exceptional brightness and photostability. See the CF® Dye Brochure for more information. Note: Conjugates of blue fluorescent dyes like CF®405S and CF®405M are not recommended for detecting low abundance targets, because blue dyes have lower fluorescence and can give higher non-specific background than other dye colors.

Stock status: Because Biotium offers a large number of antibody and conjugation options, primary antibody conjugates may be made to order. Typical lead times are up to one week for CF® dye and biotin conjugates, and up to 2-3 weeks for fluorescent protein and enzyme conjugates. Please email <a href="mailto:order@biotium.com">order@biotium.com</a> to inquire about stock status and lead times before placing your order.

Catalog number key for antibody number 1124, Anti-TOX3 (TOX3/1124)

## Droduct attributes

Call us: 800-304-5357

Product attributes				
Antibody number	#1124			
Antibody reactivity (target)	TOX3			
Antibody type	Primary			
Host species	Mouse			
Clonality	Monoclonal			
Clone	TOX3/1124			
Isotype	IgG1, kappa			
Molecular weight	63 kDa			
Synonyms	TOX3; CAG trinucleotide repeat-containing gene F9 protein; CAGF9; TOX high mobility group box family member 3; Trinucleotide repeat containing 9 (TNRC9)			
Human gene symbol	TOX3			
Entrez gene ID	27324			
SwissProt	O15405			
Unigene	460789			
Immunogen	Recombinant fragment (139 Amino acid residues around aa 200-400) of human TOX3 protein			
Verified antibody applications	WB (verified)			
Antibody target cellular localization	Nucleus & cytoplasm			
Species reactivity	Human			
Antibody application notes	Higher concentration may be required for direct detection using
