

SAFETY DATA SHEET

# LipidSpot<sup>™</sup> Lipid Droplet Stains

SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Trade name

LipidSpot<sup>™</sup> Lipid Droplet Stains

### Other names / Synonyms

70065-T: LipidSpot<sup>™</sup> 488 Lipid Droplet Stain, 20 uL 70065: LipidSpot<sup>™</sup> 488 Lipid Droplet Stain, 125 uL 70069-T: LipidSpot 610 Lipid Droplet Stain, 20 uL 70069: LipidSpot 610 Lipid Droplet Stain, 125 uL

### Product no.

70065-T, 70065, 70069-T, 70069

Other means of identification

EC No.: 200-664-3 CAS No.: 67-68-5

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

#### Relevant identified uses of the substance or mixture

Use as laboratory reagent. For research use only. Not for food, drug, household, or cosmetic use. Restricted to professional users.

### Use descriptors (REACH)

Sectors of use	Description
SU 24	Scientific research and development
Product category	Description
PC 21	Laboratory Chemicals
Process category	Description
PROC 15	Use as laboratory reagent
ses advised against	

### None known.

### 1.3. Details of the supplier of the safety data sheet

Company and address

### Biotium, Inc.

46117 Landing Parkway CA 94538 Fremont USA T: +1 510-265-1027 Fax: +1 510-265-1352 http://www.biotium.com E-mail

techsupport@biotium.com

### Revision

08/05/2024

SDS Version

1.0

### 1.4. Emergency telephone number

Anti-poison center: +32 (0) 70 245 245 (every day, 24 hours a day) See also section 4 "First aid measures".

SECTION 2: Hazards identification

## 2.1. Classification of the substance or mixture Not classified according to Regulation (EC) No. 1272/2008 (CLP). 2.2. Label elements Hazard pictogram(s) Not applicable. Signal word Not applicable. Hazard statement(s) Not applicable. Precautionary statement(s) General Prevention Response Storage Disposal Hazardous substances None known. Additional labelling Not applicable. 2.3. Other hazards

### Additional warnings

This mixture/product does not contain any substances known to fulfil the criteria for PBT and vPvB classification. This product does not contain any substances considered to be endocrine disruptors in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

SECTION 3: Composition/information on ingredients

#### 3.1. Substances

Does not contain any substances required to report

### 3.2. Mixtures

Not applicable. This product is a substance.

See full text of H-phrases in section 16. Occupational exposure limits are listed in section 8, if these are available.

### Other information

### SECTION 4: First aid measures

### 4.1. Description of first aid measures

#### General information

In the case of accident: Contact a doctor or casualty department – bring the label or this safety data sheet. The doctor can contact the Anti-poison center: +32 (0) 70 245 245 (every day, 24 hours a day) Contact a doctor if in doubt about the injured person's condition or if the symptoms persist. Never give an unconscious person water or other drink.

#### Inhalation

In case of discomfort: bring the person into fresh air.

#### Skin contact

Upon irritation: rinse with water. In the event of continued irritation, seek medical assistance.

### Eve contact

Rinse gently with lukewarm water. Remove any contact lenses if this is easy to do. Continue rinsing. In case of persistent eye irritation or discomfort: Seek medical help.

Ingestion

Rinse and flush mouth thoroughly and consume large quantities of water. In case of continued discomfort: seek medical assistance and bring this safety data sheet.

### Burns

Not applicable.

### 4.2. Most important symptoms and effects, both acute and delayed

Neurotoxic effects: This product contains organic solvents, which may cause adverse effects to the nervous system. Symptoms of neurotoxicity include: loss of appetite, headache, dizziness, ringing in ears, tingling sensations of skin, sensitivity to the cold, cramps, difficulty in concentrating, tiredness, etc. Repeated exposure to solvents can result in the breaking down of the skin's natural fat layer and may result in an increased absorption potential of other hazardous substances at the area of exposure.

### 4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

### Information to medics

Bring this safety data sheet or the label from this product.

### **SECTION 5: Firefighting measures**

### 5.1. Extinguishing media

Suitable extinguishing media: Alcohol-resistant foam, carbon dioxide, powder, water mist. Unsuitable extinguishing media: Waterjets should not be used, since they can spread the fire.

### 5.2. Special hazards arising from the substance or mixture

Fire will result in dense smoke. Exposure to combustion products may harm your health. Closed containers, which are exposed to fire, should be cooled with water. Do not allow fire-extinguishing water to enter the sewage system and nearby surface waters.

If the product is exposed to high temperatures, e.g. in the event of fire, dangerous decomposition compounds are produced. These are:

Sulphur oxides

Carbon oxides (CO / CO2)

### 5.3. Advice for firefighters

Wear self-contained breathing apparatus and protective clothing to prevent contact. Upon direct exposure contact the anti-poison center: +32 (0) 70 245 245 (every day, 24 hours a day) in order to obtain further advice. Fire fighters should wear appropriate personal protective equipment.

SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures Contaminated areas may be slippery.

### 6.2. Environmental precautions

Avoid discharge to lakes, streams, sewers, etc. Keep unauthorized persons away from the spill

### 6.3. Methods and material for containment and cleaning up

Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations.

Wherever possible cleaning should be performed with normal cleaning agents. Avoid use of solvents.

### 6.4. Reference to other sections

See section 13 "Disposal considerations" on handling of waste.

See section 8 "Exposure controls/personal protection" for protective measures.

SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Avoid contact during pregnancy and while nursing.

Smoking, drinking and consumption of food is not allowed in the work area.

See section 8 "Exposure controls/personal protection" for information on personal protection.

### 7.2. Conditions for safe storage, including any incompatibilities

### Recommended storage material

No specific requirements

### Storage temperature

Keep container tightly closed in a dry and well-ventilated place.

Protect from light. Refrigerator 2°C to 8° Incompatible materials

SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

Physical state Liquid Colour No data available Odour / Odour threshold No data available рΗ No data available Density (g/cm<sup>3</sup>) No data available **Relative density** No data available Kinematic viscosity No data available Particle characteristics No data available Phase changes Melting point/Freezing point (°C) No data available Softening point/range (waxes and pastes) (°C) Does not apply to liquids. Boiling point (°C) No data available Vapour pressure No data available Relative vapour density No data available Decomposition temperature (°C) No data available Data on fire and explosion hazards Flash point (°C) No data available Flammability (°C) No data available Auto-ignition temperature (°C) No data available Lower and upper explosion limit (% v/v) No data available Solubility

According to Le Regulation 1507/2000 (REACIT), annex II, including changes implemented by Le Regulation 2020/070
Solubility in water Soluble n-octanol/water coefficient (LogKow) No data available Solubility in fat (g/L) No data available 9.2. Other information Evaporation rate (n-butylacetate = 100) No data available Other physical and chemical parameters No data available. Oxidizing properties No data available
SECTION 10: Stability and reactivity
<ul> <li>10.1. Reactivity No data available.</li> <li>10.2. Chemical stability The product is stable under the conditions, noted in section 7 "Handling and storage".</li> <li>10.3. Possibility of hazardous reactions None known.</li> <li>10.4. Conditions to avoid Do not expose to any forms of heat (e.g. solar radiation). May lead to excess pressure. Heat, flames and sparks.</li> <li>10.5. Incompatible materials No specific requirements</li> <li>10.6. Hazardous decomposition products The product is not degraded when used as specified in section 1.</li> </ul>
SECTION 11: Toxicological information
<ul> <li>11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008</li> <li>Acute toxicity Based on available data, the classification criteria are not met.</li> <li>Skin corrosion/irritation Based on available data, the classification criteria are not met.</li> <li>Serious eye damage/irritation Based on available data, the classification criteria are not met.</li> <li>Respiratory sensitisation Based on available data, the classification criteria are not met.</li> <li>Skin sensitisation Based on available data, the classification criteria are not met.</li> <li>Skin sensitisation Based on available data, the classification criteria are not met.</li> <li>Skin sensitisation Based on available data, the classification criteria are not met.</li> <li>Germ cell mutagenicity Based on available data, the classification criteria are not met.</li> <li>Carcinogenicity Based on available data, the classification criteria are not met.</li> <li>Carcinogenicity Based on available data, the classification criteria are not met.</li> <li>STOT-single exposure Based on available data, the classification criteria are not met.</li> <li>STOT-repeated exposure Based on available data, the classification criteria are not met.</li> <li>STOT-repeated exposure Based on available data, the classification criteria are not met.</li> <li>Aspiration hazard Based on available data, the classification criteria are not met.</li> <li>STOT-repeated exposure Based on available data, the classification criteria are not met.</li> <li>Aspiration hazard Based on available data, the classification criteria are not met.</li> <li>11.2. Information on other hazards Long term effects</li> <li>Neurotoxic effects: This product contains organic solvents, which may cause adverse effects to the nervous system.</li> </ul>

Symptoms of neurotoxicity include: loss of appetite, headache, dizziness, ringing in ears, tingling sensations of skin, sensitivity to the cold, cramps, difficulty in concentrating, tiredness, etc. Repeated exposure to solvents can result in the breaking down of the skin's natural fat layer and may result in an increased absorption potential of other hazardous substances at the area of exposure.

### Endocrine disrupting properties

This mixture/product does not contain any substances known to have hormone-disrupting properties in relation to health.

### Other information

None known.

### SECTION 12: Ecological information

### 12.1. Toxicity

- No data available.
- 12.2. Persistence and degradability
  - Based on available data, the classification criteria are not met.
- 12.3. Bioaccumulative potential

Based on available data, the classification criteria are not met.

- 12.4. Mobility in soil
  - No data available.
- 12.5. Results of PBT and vPvB assessment

This mixture/product does not contain any substances known to fulfil the criteria for PBT and vPvB classification.

- 12.6. Endocrine disrupting properties
  - This mixture/product does not contain any substances considered to have endocrine-disrupting properties in relation to the environment.
- 12.7. Other adverse effects

None known.

SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

Product is not covered by regulations on dangerous waste.

Commission Regulation (EU) No 1357/2014 of 18 December 2014 on waste.

### EWC code

Not applicable.

### Contaminated packing

Packaging containing residues of the product must be disposed of similarly to the product.

SECTION 14: Transport information

	14.1 UN / 1	14.2 ID UN proper shipping name	14.3 Hazard class(es)	14.4 PG*	14.5 Env**	Other information:
ADR	-	-	-	-	-	-
IMDG	-	-	-	-	-	-
IATA	-	-	-	-	-	-

\* Packing group

\*\* Environmental hazards

Additional information

Not dangerous goods according to ADR, IATA and IMDG.

14.6. Special precautions for user

### Not applicable.

14.7. Maritime transport in bulk according to IMO instruments No data available.

SECTION 15: Regulatory information

15.1. Safety, health	and environmental	regulations/legislation	on specific for the substan	ce or mixture

### **Restrictions for application**

Restricted to professional users.

Pregnant women and women breastfeeding must not be exposed to this product. The risk, and possible technical precautions or design of the workplace needed to eliminate exposure, must be considered.

Demands for specific education

No specific requirements.

SEVESO - Categories / dangerous substances Not applicable.

### Additional information

Not applicable.

### Sources

Labor Law of 24-01-1985, updated 31-12-2020. Commission Regulation (EU) No 1357/2014 of 18 December 2014 on waste.

IMDG = International Maritime Dangerous Goods

LogPow = logarithm of the octanol/water partition coefficient

MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)

OECD = Organisation for Economic Co-operation and Development

PBT = Persistent, Bioaccumulative and Toxic

PNEC = Predicted No Effect Concentration

RID = The Regulations concerning the International Carriage of Dangerous Goods by Rail

RRN = REACH Registration Number SCL = A specific concentration limit SVHC = Substances of Very High Concern STOT-RE = Specific Target Organ Toxicity - Repeated Exposure STOT-SE = Specific Target Organ Toxicity - Single Exposure TWA = Time weighted average UN = United Nations UVBC = Unknown or variable composition, complex reaction products or of biological materials VOC = Volatile Organic Compound vPvB = Very Persistent and Very Bioaccumulative

### Additional information

In accordance with Article 31 of REACH, a safety data sheet is not required for this product. This safety data sheet has been created on a voluntary basis to distribute relevant information as required under Article 32 of REACH. The information provided above is believed to be correct to our best knowledge, but does not purport to be all inclusive, and shall be used only as a guide. This material is sold for research purposes only and is not required to appear on the TSCA inventory. It is not intended for food, drug, household, agricultural or cosmetic use. Its use must be supervised by a technically qualified individual experienced in handling potentially hazardous chemicals. Biotium shall not be held liable for any damage resulting from handling or contact with the above product.

### The safety data sheet is validated by

Julianne Davis

### Other

A change (in proportion to the last essential change (first cipher in SDS version, see section 1)) is marked with a triangle.

The information in this safety data sheet applies only to this specific product (mentioned in section 1) and is not necessarily correct for use with other chemicals/products.

It is recommended to hand over this safety data sheet to the actual user of the product. Information in this safety data sheet cannot be used as a product specification.

Country-language: BE-en
